Clinician: what your problem

Patient: (panting) Oh, doctor... I have this... this heavy, crushing pressure in the middle of my chest... (gasping) it's been going on for about 45 minutes now... (wiping sweat) It feels like an elephant is sitting on my chest, and it's radiating to my left arm and jaw... (breathing heavily) I'm also sweating a lot and feeling a bit dizzy... (looking worried)

I'm really scared, doctor... what's happening to me?
